Non-IFRS performance measures

OSBG believes that any non-IFRS performance measures included in this document provide a more consistent basis for comparing the business' performance between financial periods, and provide more detail concerning the elements of performance which OSBG is most directly able to influence or which are relevant for an assessment of OSBG. They also reflect an important aspect of the way in which operating targets are defined and performance is monitored by the Board. However, any non-IFRS performance measures in this document are not a substitute for IFRS measures as well.
